RUBBER MOLDS

We plate small and intricate molds, molds of unlimited size and weight, and everything in between.

- Compression molds
- Injection molds
- Rubber molds

Benefits of treatment:

Significant operational cost savings via:

- Increase mold productivity per man hour by twofold, and cut labor costs
- Reduce tooling down time for mold cleaning
- Eliminate parts sticking in molds during the molding operation by retaining molded part quality
- Reduce costs of repetitive tool maintenance/replacement with increased wear protection

Related services for rubber molds:

- Mold polishing
